## PERSONAL PROJECTS

**Personalized Audio Book Reciter cum Alexa!**
**(11/2020 - Present)**

- Created a personalized Audio book reciter using python language which reads the PDF books after receiving audio input from user.
- It also works as a personal assistant like alexa. Eg. User gives a audio command: such as playing a song- the bot plays a song.

**Covid-19 Mobile friendly Dashboard!**
**(09/2020 - 11/2020)**

- This dashboard was created using Powerbi by importing the latest available data from web (Wikipedia). This dashboard consist of various visuals such as filled-map, word cloud, QnA pane.
- The dashboard consist of simple placards to show country wise total Cases, total recoveries, and total deaths.
- The dashboard is customized for Desktop view as well.

**Dashboards and Visualizations! (01/2020 - 09/2020)**

- Successfully completed 18 visualizations/dashboards using Tableau and uploaded them on tableau public.
